## About the Fund

The RE:CM Global Fund is a US dollar denominated equity-centric fund domiciled in Guernsey. It invests predominantly in large global companies listed on recognised exchanges across all markets. A prospectus is available from RE:CM Collective Investments (Pty) Ltd.

## Fund Objective

The portfolio aims to outperform the MSCI World Index in USD (including income) over the long term with lower than average risk of capital loss and with less volatility than the index.

## Risk Measures

Whilst the risk is higher than that of a global balanced fund, our investment process is designed to minimise the risk of losing money over the long term.

## RISK STATISTICS AND PORTFOLIO DETAIL

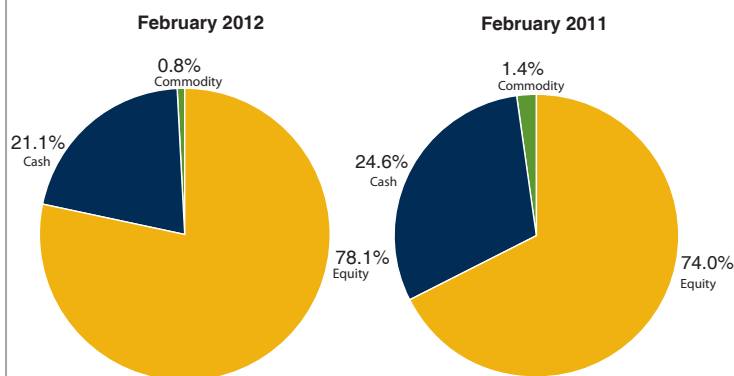

### FUND PROFILE

### TOP HOLDINGS (%)

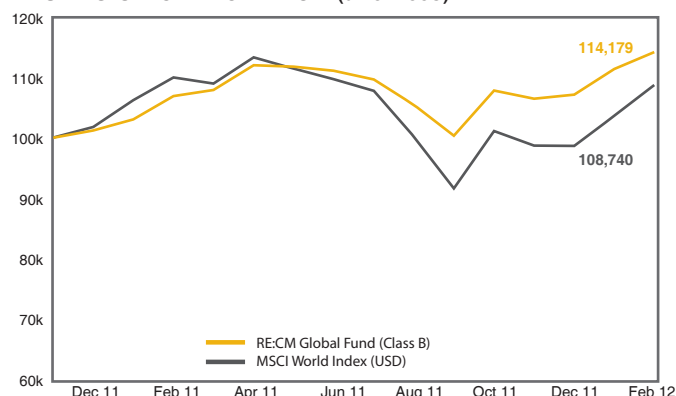

February 2012		February 2011

### RETURNS TO END FEBRUARY 2012 (%)\*

	Fund	Benchmark
1 Year (Class B)	6.8%	-1.1%
3 Years	22.4%	23.3%
5 Years	5.5%	0.0%
Since Inception	6.0%	2.2%
Since Inception (Class B)	10.1%	5.4%

- Returns are in USD net of fees with distributions re-invested. Source: RE:CM Analyst, Bloomberg.
- Periods greater than 1 year are annualised.
- Inception Date, 31 March 2006 (Class A), 14 December 2010 (Class B).

\* Class A performance is provided in the table above unless indicated, to show historical performance as the B Class has only been operative since December 2010.

### INVESTMENT COMMENT

A net result of our actions over recent months has been an increase in exposure to European, UK and Japanese assets, and a reduction in exposure to US assets. Direct exposure to emerging markets remains at negligible levels, although many of our investee companies have large businesses in the emerging markets. Again, this has not happened due to a macroeconomic view or forecast; it is simply due to price/value relationships. The undervalued assets happened to be domiciled in the developed markets. The cash portion of the Fund has remained at around the 20% level. Although cash has very low returns these days due to the monetary policies being followed by most central banks, we regard the main value of cash to lie in the optionality it conveys upon the holder thereof. If and when asset prices decline, holders of cash can generally deploy the cash on favourable terms. In our view, risks in markets remain elevated, and we feel reasonably confident that such opportunities will present themselves from time to time.

**Disclaimer:** Collective Investment Schemes in Securities are generally medium to long term investments. The value of participatory interests may go down as well as up and past performance is not necessarily a guide to the future. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down. Collective investments are traded at ruling prices and can engage in scrip lending. The manager may borrow up to 10% of the market value of the portfolio where insufficient liquidity exists. A schedule of fees and charges and maximum commissions is available from the company/ scheme. Commission and incentives may be paid and if so, would be included in the overall costs. The quantifiable deduction is the annual management fee (and performance fee), whilst non-quantifiable fees included in the net asset value price may comprise brokerage, auditor's fees, bank charges, UST, trustee and custodian fees. Collective investment prices are calculated on a net asset value basis, which is the total value of all assets in the portfolio including any income accrual and less any permissible deductions from the portfolio. Forward pricing is used. Fund valuations take place at 11 pm Guernsey time on the first business day of each week. Withdrawal requests and contributions must be received by the Manager by 4 pm Guernsey time on the first business day of the week to be processed that week. The Management Company is RE:CM Guernsey Management Company Limited. The Custodian is Royal Bank of Canada (Channel Islands) Limited and the Administrators are Kleinwort Benson. This fact sheet should be read in conjunction with the "Schedule of Similarities and Differences" available on the website. RE:CM Collective Investments (Pty) Ltd is a member of the Association for Savings and Investment SA (ASISA).
