More detail:

5. Hedging

Only currency related hedging transactions are permitted. The Fund is denominated in US Dollars. Derivatives shall only be used for efficient portfolio management. No gearing, leveraging or margining will be allowed. Unlisted derivative instruments will only be allowed for unlisted forward currency, interest rate or exchange rate swap transactions where the Manager believes it is appropriate to hedge the currency risks associated with non-US Dollar denominated investments. No uncovered positions will be allowed. The total liability of the Fund under such transactions will be limited to a level not exceeding twenty-five percent of the Net Asset Value.

6. Investment in listed instruments

Investment in securities issued by companies that are not listed on a Recognised Exchange will be limited to a level not exceeding ten per cent of the Net Asset Value of the Fund.

Unlisted derivative instruments will only be allowed for unlisted forward currency, interest rate or exchange rate swap transactions where the Manager believes it is appropriate to hedge the currency risks associated with non-US Dollar denominated investments. No uncovered positions will be allowed.

The Fund will not invest in any instrument that compels the physical delivery of a commodity and the Fund is prohibited from accepting physical delivery.

7. Non-equity securities

Not less than 90% of all interest-bearing instruments must have been assigned a credit rating of “investment grade” on the international rating scale by a Rating Agency. Rating agency is defined as being any one or more of Standard & Poor’s, Moody’s and Fitch Ratings.

8. Investments in unlisted instruments

Investment in securities issued by companies that are not listed on Recognised Exchanges will be limited to a level not exceeding ten per cent of the Net Asset Value of the Fund.

10. Borrowings

The Fund has power to borrow, but any borrowings will be limited to ten per cent of the Net Asset Value at the time of borrowing and will only be used to fund redemptions when in the opinion of the Investment Adviser it is in the interest of the Shareholders to borrow rather than liquidate investments.

Leveraging / gearing.

No gearing, leveraging or margining will be allowed

11.2 OTC markets

No OTC markets allowed except for unlisted forward currency, interest rate or exchange rate swap transactions where the inclusion of such transactions is only utilised for efficient portfolio management.

12. Expenses

All the costs and expenses associated with the organisation of the Fund and the initial offering of the "A", "B" and "C" Shares were paid by the Fund and have been written off.

All costs and expenses associated with the initial offering of the "D" and "E" Shares were paid by the Manager.

Fees of the Manager

For the services performed under the Management Agreement, the Fund will pay the Manager a management fee equal to 1.00% per annum of the Net Asset Value relevant to the "A" Share class, 1.5% per annum of the Net Asset Value relevant to the "B" Share class, 0.5% per annum of the Net Asset Value relevant to the "C" Share class, 0.9% per annum of the Net Asset Value relevant to the "D" Share class and 1.25% per annum of the Net Asset Value relevant to the "E" Share class. In relation to the "A" Share class, the "B" Share class and the "D" Share class the Manager is entitled to a Performance Fee described under "Performance Fee" below.

The Manager's fee shall accrue at each Valuation Point and be payable monthly in arrears in US Dollars. The Manager's fee shall be paid pro-rata for any period shorter than the month in respect of which such fee is payable. The Manager pays the fees of the Administrator and the Investment Adviser.

Initial Fees and Exit Fees

Under the terms of the Fund's Articles the Manager may, at its discretion, impose an initial fee of not more than 7.5% of the Subscription Price or transaction amount in respect of subscriptions into Share classes of the Fund. The Manager does not intend to charge any initial fees or exit fees although a sales commission by an investor to such investor's broker may be charged.

Fees of the Custodian

For the services performed under the Custodian Agreement and in payment for the facilities and personnel provided by the Custodian pursuant to the Custodian Agreement, the Fund will pay the Custodian a fee calculated by reference to the assets under management (“AUM”) subject to a minimum annual fee of US\$40,000. The Custodian is also entitled to levy and receive a transaction charge (which range from US\$5 to US\$190 depending on the country) in respect of each transaction it undertakes and sub-custody fees as per the Custodian’s standard global custody rate card.

The following table set out the fees payable by the Fund to the Custodian:

AUM Tier per Cell/Portfolio	Safekeeping Fees % p.a.
US\$0 - US\$200 million	0.05%
US\$200 million – US\$350 million	0.04%
> US\$350 million	0.03%

The Custodian's fee shall accrue at each Valuation Point and be payable monthly in arrears in US Dollars. The Custodian fees shall be paid pro-rata for any period shorter than the period in respect of which such fee is payable.

Performance Fee

The Fund has agreed with the Manager that the Manager shall be entitled to a performance fee (the “Performance Fee”) in respect of the “A” Share class, the “B” Share class and the “D” Share class for its services to the Fund under the Management Agreement. There is no performance fee payable in respect of the “C” Share class or “E” Share class.

The Performance Fee shall be levied respectively on the “A” Share class, the “B” Share class and the “D” Share class based on the performance of the Fund relative to that of its hurdle. The Performance Fee is calculated and accrued daily and can be either positive in the case of outperformance of the Daily Performance Hurdle or negative in the case of under performance of the Daily Performance Hurdle.

The daily Performance Fee is calculated as an amount equal to 20% of the Fund's Return above/(below) the Daily Performance Hurdle, after the deduction of the Manager's fee. The Performance Fee accrual (the "Accrual") due to the Manager is calculated as the sum of all daily Performance Fees accrued since the inception of the share class. The Accrual will increase or decrease by the daily Performance Fee charges or refunds respectively. A daily calculated Performance Fee refund is only possible to the extent that there is a positive Accrual (a fee owing to the Manager, but not yet paid) in the relevant class of the Fund. The Accrual may never be negative for the Fund (it may not be an asset in the relevant class of the Fund). The Manager shall track any negative amount that develops and any such negative amount must first be offset by a Performance Fee charge before a positive Accrual can be recognised in the Fund.

Prior to 1 August 2014, the Accrual was calculated as the sum of all daily Accruals over the five years immediately prior to the calculation date. As a result of the change to the performance measurement period, the Accrual for "A" Shares as at 1 August 2014 was rebased to an inception to date period. There was no change to "B" Shares and "D" Shares since their inception dates were less than 5 years prior to 1 August 2014.

Prior to 2 January 2014, the Daily Performance Hurdle was based on the Morgan Stanley Capital International Inc World Index (in US dollars and with income reinvested) plus 2.5% per annum. From 2 January 2014, the Daily Performance Hurdle is based on the US Consumer Price Index for All Urban Consumers plus 8% per annum. As a result of the change to the Daily Performance Hurdle, the Accrual will be calculated using daily Performance Fees based on both the old and new hurdles.

The payment of a Performance Fee to the Manager reduces the outstanding Accrual. Payment of the Performance Fee can only be made when the following criteria have been met: 1) The Accrual must be positive and 2) the share class return must have outperformed its hurdle return over the previous five years. The value of the Performance Fee paid to the Manager at each month end will be equal to the lesser of the Performance Fee accrued in the equivalent month five years prior or the total value of the Accrual. If the Performance Fee accrued in the equivalent month five years prior was negative, then no payment is to be made. Prior to 1 August 2014 the value of the Performance Fee paid to the Manager at each month end was one twelfth of the Accrual at the end of each month. The first Performance Fee payment will occur at the end of the sixtieth month following the date on which the relevant class of the Fund first issues Shares. "A" Shares and "B" Shares are currently eligible for the payment of performance fees. "D" Shares will be eligible for the payment of performance fees from 14 August 2019.

The Directors are permitted to write back into the relevant class of the Fund any part of the Performance Fee Accrual that the Directors believe will not become payable.

Other Operating Expenses

The Manager and the Administrator will be responsible for providing all office personnel, office space and office facilities required for the performance of their services. The Fund will pay ongoing legal, audit and administrative expenses incidental to its operations and business, including but not limited to (1) brokerage commissions and charges, foreign exchange costs and registration fees relating to investments; (2) interest on permitted borrowings and fees and charges incurred in negotiating, effecting, varying the terms of, or terminating such borrowings; (3) fees and charges (including legal fees) incurred in modifying the Fund's Memorandum, unless such modification is primarily for the benefit of the Manager; (4) the cost of holding any meeting of Shareholders; (5) the fees and charges of the Fund's Auditors; (6) any fees and charges (including legal fees) associated with obtaining and maintaining the Fund's approval as a Guernsey collective investment scheme of Class B and/or the approval of any regulatory body in any other jurisdiction in which the Fund's Shares are or may be marketed; (7) fees and charges associated with publishing the Fund's Memorandum and the Fund's annual and any interim reports; (8) any reasonable expenses incurred in the preparation and provision of tax vouchers, contract notes, warrants, or forms of proxy; (9) any costs associated with the publication of the Net Asset Value; (10) fees and charges of clearing agents; (11) the cost of providing professional indemnity insurance for the Directors and the Manager; (12) interest on debit balances, including permitted borrowings, and other bank charges; (13) the costs of maintaining the Fund's registered office in Guernsey; and (14) any income taxes, withholding taxes and other government charges and duties for which the Fund is liable.

The Directors are entitled to receive a fee for acting as directors of the Fund which in aggregate shall not exceed US\$100,000 in any financial year or such higher amount as may be approved by an Ordinary Resolution of the Shareholders in general meeting. James Tracey and Ben Morgan currently each receive a fee of £10,000 per annum. Jan van Niekerk has waived his entitlement to a director's fee. All Directors will be reimbursed for any reasonable travel and other expenses relating to the management of the Fund.

The Fees (as defined in the section headed "Definitions" in the Offering Memorandum) shall only be increased (and additional expenses shall only be introduced) provided that no change shall be effected without Shareholders being given a Dealing Day's Notice of such change. Shareholders will not be required to approve increases in fees and expenses payable by the Fund although the Directors reserve the right to seek approval from Shareholders by Extraordinary Resolution. In seeking approval from the Shareholders as aforesaid the Directors may also request Shareholders to approve a general waiver of the aforementioned requirement to provide at least one Dealing Day's Notice of the proposed amendments to the fees and expenses. Shareholders should note that the waiver, if passed, would apply to all Shareholders of the Fund or a Class Fund (as applicable) regardless of whether or not they voted in favour of the waiver. In any case, such approval(s) would be sought by means of an Extraordinary Resolution of the Fund or a Class Fund (as applicable) if the Directors consider it appropriate.

15. Capped or not capped

The Fund was registered in Guernsey on 31 January 2006 under the provisions of The Companies (Guernsey) Laws, 1994 to 2001, as amended, and subsequently re-registered under the provisions of The Companies (Guernsey) Law, 2008, as amended, as a non-cellular company limited by shares (registered number: 44273) under the name of RE:CM Global Fund Limited. By Special Resolution dated 18 December 2013 the Shareholders approved the change of name to RECM Global Fund Limited. The Fund has issued 1,000 Management Shares, all of which have been allotted and issued to the Manager, 2 of which have been credited as fully paid up and 998 as nil paid, and may create an unlimited number of Participating Shares, which shares may be issued in classes. The Fund currently has in issue US\$ denominated "A" Shares, "B" Shares, "C" Shares, "D" Shares and "E" Shares.

16. Redemptions

Redemption Procedure

Shares of any class may be redeemed on any Dealing Day. Shareholders wishing to redeem some or all of their Shares should complete a Redemption Form and forward it to the Administrator.

Redemption Forms must be received by the Administrator by 3.30 pm (Guernsey time) on the Business Day immediately preceding the relevant Dealing Day ("the Relevant Dealing Day"). Where a Redemption Form is received with incorrect or incomplete information, the Shareholder shall be informed thereof and the Redemption Form shall be deemed to be received at the time that the correct or complete information is received in writing.

The minimum value of Shares of any class which may be the subject of any one act of redemption is US\$1,000. The Directors or the Manager, in their absolute discretion, may vary or waive the value of Shares that may be the subject of any one act of redemption.

A request for redemption of part of a Shareholder's holding of Shares of any class may be treated as a request to redeem the entire holding if, as a result of such partial redemption, a Shareholder would then hold Shares in the class concerned with a value of less than US\$50,000 or its equivalent in the base currency of the class concerned.

Notice of redemption of Shares of any class may be given by e-mail or facsimile (with the original being forwarded by pre-paid post) or in writing to the Administrator and must specify the number or value of Shares of the relevant class to be redeemed and should quote the relevant Shareholder number. The Administrator will be deemed to be authorised to make such redemption if instructed to do so by any person purporting to be the Shareholder and reciting the relevant Shareholder number. All such redemptions shall normally be paid in accordance with the details contained in the redemption payment instructions in the original Subscription Agreement. Unless specified otherwise in accordance with the procedure set out below.

It is not the policy of the Fund or the Administrator to make payment of redemption proceeds to third parties. If payment is to be made other than to the bank account specified in the Redemption Payment Instruction in the original Subscription Agreement or the account from which the subscription monies were received, then such revised payment instruction must be notified to the Administrator in advance in writing. In the case of joint Shareholders, all must sign the revised payment instructions. The Administrator will require details relating to the third party and may need to undertake additional AML/CFT checks before making the payment. The Administrator reserves the right to request any documentation in support of such third party payment and reserves the right to refuse to affect such payment.

For a redemption of 5% or more in value of the total number of Shares in issue of a particular class, the Manager may, at its absolute discretion and having given prior written notice to the Shareholder concerned not later than the close of business on the second Business Day following the date on which the request is received, elect to transfer underlying investments, rather than cash, in satisfaction of the redemption provided such distribution does not prejudice the interests of other Shareholders in that class. In such circumstances, the redeeming Shareholder has the right to instruct the Manager (as its authorised agent) to sell such underlying investments on its behalf (and at its expense which will include the Administrator's fee for such service based on the number of underlying investments and agree in advance between the Administrator and the redeeming Shareholder) and, following the completion of such sale, instruct the Manager to arrange for the cash payment to it of the net sale proceeds. In connection with any such sale, the redeeming Shareholder will be deemed to have acknowledged that the amount that may be realised by the Manager from the sale of such underlying investments may be less than the valuation given to those investments in the valuation of the class for redemption purposes. The amount that the redeeming Shareholder shall receive after such sale will be net of all sale charges.

Provided that the Redemption Form is in order, payment of the redemption proceeds will normally be made on or before the fourth Business Day following the Relevant Dealing Day, to the Bank specified on the original Subscription Agreement unless the Administrator is advised of any further instructions as above. Settlement will be effected by telegraphic transfer in accordance with the redeeming Shareholder's instructions. All redemption monies will be paid in US Dollars. In all cases, payment will be effected at the risk of the redeeming Shareholder and his expense as regards bank charges. No redemption proceeds shall bear interest against the Fund, the Manager or any other person.

A contract note detailing the number of Shares of the relevant class redeemed will be sent to the redeeming Shareholder normally within two Business Days and in any event within 7 Business Days of the Relevant Dealing Day.

Redemption Price

Shares in any class will be redeemed at a price per Share (the "Redemption Price") which is determined by reference to the Net Asset Value per Share of the relevant class calculated as at the Valuation Point for the Relevant Dealing Day. The Redemption Price for any class of Share is arrived at by dividing the Net Asset Value of the relevant class by the number of Shares of that class in issue or deemed to be in issue and rounding the resulting amount to the nearest four decimal places. The benefit of any rounding will accrue to the benefit of the Fund. Under the terms of the Articles, the Directors may authorise the Administrator, when calculating the Redemption Price, to deduct an allowance for duties and charges which would be incurred if the investments held for the Fund relevant to the class were to be sold at the relevant Valuation Point.

Deferral of Redemptions

The Directors may limit the total number of Shares in a class which may be redeemed on any Dealing Day to 10% (or such other percentage as the Directors may determine) of the total number of Shares of that class in issue. The limitation will be applied pro rata to all Shareholders who have requested redemptions to be effected on or as at such Dealing Day so that the proportion of each holding redeemed is the same for all such Shareholders. Any Shares which, by virtue of this limitation, are not realised on any particular Dealing Day shall be carried forward for redemption on the next following Dealing Day at the Redemption Price of the relevant class ruling on that Dealing Day. In respect of any Dealing Day to which redemption requests ("Deferred Requests") are deferred, such requests will be dealt with in priority to other requests for redemption of Shares on that day ("Other Requests") until the Deferred Requests have been satisfied in full. The deferral powers described in this paragraph shall apply mutatis mutandis to any Other Requests which, as a result of the above limit, have not been satisfied in full on any Dealing Day.

Compulsory Redemption

The Directors have the power under the Articles to compulsorily redeem at any time the Shares of any investor (i) who holds Shares directly or beneficially in breach of any law or requirement of any country or governmental or regulatory authority; or (ii) who is not qualified to hold such Shares; or (iii) in circumstances which will or may result in the Fund incurring any liability to taxation or suffering any pecuniary or other disadvantage which the Fund might not otherwise have incurred or suffered; or (iii) if more than 25 % of the capital of the Fund were owned by "Benefit Plans" or in some other way the Fund may be deemed to be in jeopardy of having "Plan Asset" status or which may cause the Fund to be classified as an "investment company" under the 1940 Act. In any of the above circumstances shall come to the notice of the Manager, it may give notice to such person requiring him (i) to provide the Manager within thirty days with sufficient satisfactory documentary evidence to satisfy the Manager that such person shall not cause the Fund to be classified as an investment company under the 1940 Act; or (ii) to sell or transfer his Shares to a person qualified to own the same within thirty days and within such thirty days to provide the Manager with satisfactory evidence of such sale or transfer; or (iii) to request that the Manager redeem the Shares pursuant to the

Articles. If any person upon whom such a notice is served pursuant to this paragraph does not within thirty days after such notice transfer his Shares to a person qualified to own the same or establish to the satisfaction of the Manager (whose judgment shall be final and binding) that he is qualified and entitled to own the Shares he shall be deemed upon the expiration of such thirty days to have given a redemption request in respect of all his Shares and the Manager shall be entitled to treat such redemption request as if the period of notice referred to in this paragraph had already expired.

The Directors have the power under the Articles to compulsorily redeem on any Dealing Day any holding of Shares with a redemption value of less than US\$50,000 of any class at the Redemption Price on that day.

In addition, the Directors have the power under the Articles to give not less than 3 weeks' notice (expiring on a Dealing Day) to compulsorily redeem all Shares in issue, if the Net Asset Value of all classes then in issue as at each Valuation Point falling within a period of four consecutive weeks is less than, the equivalent of US\$10,000,000. A power of compulsory redemption, or conversion into Shares of another class, is also exercisable by the Directors (subject to notice as aforesaid) in the event that, if at any time, the Net Asset Value of any class of Shares as at each Valuation Point for a period of 4 consecutive weeks is less than the equivalent of US\$5,000,000. This power is without prejudice to the ability of Shareholders generally under the Articles to convert their Shares of a particular class into Shares of another class.

Calculation of Net Asset Value

The Net Asset Value of each class will be calculated by the Administrator as at each Valuation Point. Under the Articles, the Net Asset Value is determined by deducting the value of the total liabilities of a class from the gross value of the total assets of that class. Total assets include all cash, accounts receivable, accrued interest and the current market values of all investments. Total liabilities include any fees payable to the Manager and the Custodian, all borrowings, provision for taxes (if any), allowances for contingent liabilities and any other costs and expenses reasonably and properly incurred in effecting the acquisition or disposal of securities. Further information on the valuation of assets is provided under the section headed "Additional Information Valuation of Net Assets" in the Offering Memorandum.

Valuation

The Fund will be valued as at 11.00 pm in Guernsey on the Business Day immediately preceding each Dealing Day for the purpose of calculating the prices at which Shares in each of the relevant classes shall be issued or redeemed on that Dealing Day.

Publication of Prices

The Subscription Price and the Redemption Price of each of the classes in respect of the immediately preceding Dealing Day will be available on request from the Administrator.

18. Taxation of Portfolio

The Fund has received tax exempt status in Guernsey pursuant to the Income Tax (Exempt Bodies) (Guernsey) Ordinance 1989. The exemption is granted on an annual basis, subject to the payment of an annual fee of £1,200. It is the intention of the Directors to continue to apply for an exemption annually.

Exemption must be applied for annually and will be granted, subject to the payment of an annual fee, which is currently fixed at £1,200, provided that the Fund continues to qualify for tax exemption. It is the intention of the Directors to conduct the affairs of the Fund so as to ensure that it will continue to qualify for exempt company status.

As an exempt company, the Fund will be treated as if it were not resident in Guernsey for the purposes of liability to Guernsey income tax. Under current law and practice in Guernsey, the Fund will only be liable to tax in Guernsey in respect of income arising or accruing from a Guernsey source, other than from a relevant bank deposit. It is not anticipated that such Guernsey source taxable income will arise in this case.

Distributions made by exempt companies to non-Guernsey residents will be free of Guernsey withholding tax and reporting requirements.

In the absence of tax exempt status, the Fund would be Guernsey tax resident and taxable at the Guernsey standard rate of company income tax of zero percent.

It is intended for the Fund to invest in listed securities. In the normal course of events, it is expected that the only tax that may be levied on the Fund will be withholding tax deducted at source on dividends received from underlying equity investments.

No stamp duty is chargeable in Guernsey on the issue, transfer or redemption of shares in the Fund.

19. Taxation of Unitholders

Unitholders from South Africa will be taxed on foreign dividends and interest as well as any capital gains made.

20. Interval for Pricing

The Fund will be valued daily as at 11.00 pm in Guernsey on the Business Day immediately preceding a Dealing Day.

21. Distributions

The Directors do not currently intend to make any distributions of income to Shareholders. Any income will instead be invested by the Fund in accordance with the Fund's investment objective and strategy.

22. Switching

Not applicable. However shareholders may convert shares of one class into shares of another class.

Conversion Procedure

Shareholders shall, subject to the approval of the Directors, be entitled to convert Shares of one class (the "Original Class") into Shares of any other class then in existence or agreed by the Directors to be brought into existence (the "New Class") and are required to give the same period of notice for the conversion of Shares of the Original Class as they would have to give for the redemption of those Shares. Shareholders may at the option of the Manager only be entitled to convert shares on the applicable Dealing Day(s) subject to receipt of a conversion request by the Manager.

The conversion of Shares comprised in the relevant conversion request shall occur on the Dealing Day after the Business Day on which prior to 3.30 pm (Guernsey time) (or such other time as the Directors may determine either generally or in relation to a particular class or in any specific case) the Fund or its authorised agent is in receipt of such conversion request or on such other Business Day as the Directors, at the request of the Shareholder, may agree. Any conversion request received after 3:30 pm (Guernsey time) (or such other time as the Directors may determine either generally or in relation to a class or in any specific case) on any Business Day may be deemed to have been received on the next following Business Day. At the option of the Manager, conversions may be processed as a redemption on one Dealing Day funding a subsequent investment on a following Dealing Day only once the redemption proceeds of the Original Class have been made available to the New Class to fund the subscription.

Instructions for the conversion of Shares may be given by facsimile or by e-mail (with the original to follow by post) or in writing to the Manager at its address stated in the Directory and such instructions must specify the number or value and the class of Shares to be converted, the class of Shares into which they are to be converted and should quote the relevant Shareholder number. The Manager will be deemed to be authorised to make such conversion if instructed to do so by any person purporting to be the Shareholder and reciting the relevant Shareholder number.

All conversion requests must be accompanied by a duly completed Subscription Agreement for the New Class unless Shares are already held by the Shareholder concerned in such class.

The conversion will be effected at the applicable Subscription Price and Redemption Price of Shares in the relevant classes in accordance (or nearly as may be in accordance) with the following formula:

$$NS = ((OS \times RP \times CF) - CC) \div SP$$

where:-

- NS is the number of Shares of the New Class to be allotted and issued;
- OS is the aggregate number of Shares of the Original Class to be converted comprised in the conversion notice;
- RP is the Redemption Price per Share of the Original Class ruling on the relevant Dealing Day;
- CF is the currency conversion factor determined by the Manager as representing the effective rate of exchange on the relevant Dealing Day between the base currency of the relevant classes;
- CC is the conversion charge, if any, due upon conversion of Shares in the Original Class into Shares of the New Class; and
- SP is the Subscription Price per Share for the New Class ruling on the relevant Dealing Day plus any initial charge payable thereon.

Contract notes confirming the conversion between the classes will be issued in accordance with the Conduct of Business Rules.

23. Pledging

Subject as described under “Borrowings” on page 16 of the Offering Memorandum, the Directors may exercise all the powers of the Fund to borrow money for the purposes of redemption.

As security for the repayment of the loan the manager may -

- (a) cede a proportionate share of the assets of the portfolio to the lender on condition that ownership of the ceded assets will only be transferred to the lender if the manager is in default; or
- (b) grant an option to the lender to purchase a proportionate share of the assets, equal in value to the outstanding amount of the loan, at the end of the term of the loan.

The manager may only borrow funds if liquidity cannot reasonably be obtained without encumbering the assets of the portfolio and the amount borrowed must be limited to an amount necessary to repurchase or cancel participatory interests.

24. Scrip lending and scrip borrowing

The Fund will not enter into stock lending or stock borrowing transactions.

25. Certificates

All shares will be issued in registered form only.

28. Reporting to investors

As described on page 49 of the Offering Memorandum, copies of the audited financial statements of the Fund, will be available to all Shareholders not more than 6 months after the end of the period to which they relate.

The Subscription Price and the Redemption Price in respect of the immediately preceding Dealing Day will be available on request from the Administrator.

29. Legal structure

The Fund is an open-ended investment company registered with limited liability in Guernsey on 31 January 2006 and has been authorised by the Guernsey Financial Services Commission as a collective investment scheme under the Rules.
