Regulation 28	Does not comply

About the Fund

The RE:CM Money Market Fund comprises a diversified combination of money market instruments.

Fund Objective

The Fund aims to maximise interest income, preserve capital and provide liquidity. This Fund is also suitable for risk averse investors seeking a temporary, safe holding vehicle in times of market uncertainty. Investors seeking capital preservation, requiring regular interest income and liquidity should invest in this fund.

Risk Measures

Capital losses are unlikely but can occur. For example, should one of the issuers of an asset held within the underlying Fund default and a loss occur, this loss will be borne by the Fund and the investors.

INVESTMENT COMMENT

The RE:CM Money Market Fund generated an income yield of 5.6% against the benchmark yield of 4.8%. The portfolio duration was relatively unchanged from 80 days in May 2013 to 79 days at the end of June 2013. We have maintained a higher duration to take advantage of the increase in long term rates over the month. Headline inflation decreased from 5.9% in April to 5.6% in May and came in below the market consensus of 5.8%. Lower inflation was mainly due to the 73c/l cut in the petrol price. Core inflation which excludes petrol, energy and food came in slightly higher at 5.3% from 5.2% in May. The risk to inflation remains to the upside with continued rand weakness and bond market volatility resulting in foreigners selling R6.3bn of government bonds over the month. Despite narrowing from 6.5% to 5.8% of GDP, the current account deficit still remains a threat to the currency. The forward rate market continues to price in rate hikes over the 12 months regardless of deteriorating domestic growth, limiting the ability of the Reserve Bank to adjust the repo rate. The fund remains competitively positioned in the current interest rate cycle. We have further increased our holdings of longer dated bank paper following the pick-up in yields on 6 to 12 month maturities. Fixed rate instruments now make up 40% of the fund.

Disclaimer: Collective Investment Schemes in Securities (Unit trusts) are generally medium to long term investments. The value of participatory interests (units) may go down as well as up and past performance is not necessarily a guide to future performance. Unit trusts are traded at ruling prices and can engage in borrowing and scrip lending. The manager may borrow up to 10% of the market value of the portfolio where insufficient liquidity exists. A schedule of fees and charges and maximum commissions is available on request from the management company, RE:CM Collective Investments (Pty) Ltd (RE:CM). Commission and incentives may be paid and if so, would be included in the overall costs. The price of each unit in the RE:CM Money Market Fund is aimed at a constant value. The total return to the investor is primarily made up of interest received but, may also include any gain or loss made on any particular instrument. In most cases this will merely have the effect of increasing or decreasing the daily yield, but in an extreme case it can have the effect of reducing the capital value of the Fund. Forward pricing is used. Funds are valued daily at 15h00 with the exception of the RE:CM Money Market Fund which is valued before 18h00. Instructions must reach RE:CM before 14h00 to ensure same day value (11h00 for the RE:CM Money Market Fund). Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down. Different classes of units apply to these portfolios and are subject to different fees and charges. Unit trust prices are calculated on a net asset value basis, defined as the total market value of all assets in the unit portfolio including any income accruals and less any permissible deductions (brokerage, uncertified securities tax, VAT, auditors' fees, bank charges, custodian fees, trustee fees, annual management fee and performance fees) from the portfolio divided by the number of units in issue. These portfolios may be closed. RE:CM Collective Investments (Pty) Ltd, Company Registration Number: 2004/027540/07, is a member of the Association for Savings and Investment SA (ASISA). Trustees: The Standard Bank of SA Limited, PO Box 54, Cape Town, 8000. *Acting under supervision from Piet Viljoen.
